

## Rykmý á Íslandi – heimildalisti A bibliography of Icelandic chironomid research

Safnað hefur / Compiled by Þóra Hrafnadóttir ([thora@natkop.is](mailto:thora@natkop.is))  
Síðast endurskoðað / Updated 14. desember 2006

Í listanum er að finna heimildir um rannsóknir á Íslandi þar sem rykmý (Chironomidae) kemur við sögu. Listinn er byggður á heimildalista rykmýsheftis Zoology of Iceland, að viðbættum fleiri heimildum.

Heimildum er raðað í stafrófsröð eftir seinna nafni höfundar, hvort sem hann er íslenskur eða erlendur, enda er listinn ætlaður fleirum um Íslendingum. Íslenskir titlar hafa verið þýddir á ensku og getið er ensks heitis íslenskra stofnana.

A bibliography of Icelandic research including chironomids, based on references listed in the chironomid publication of the Zoology of Iceland (2005) plus additional references.

References are listed in alphabetical order by the authors' second name. Icelandic titles and institutes' names are given in English in parentheses.
